Members may not provide access to club grounds to non-member's cars.

Non-compliance will result in removal of electronic key access.

## SPEED LIMIT

A speed limit of 10km / hr applies throughout the HHBSC site. Members caught exceeding the speed limit will have their access key deactivated.

## SAFETY

The Club is committed to safety within the Club grounds and premises and on the water.

## PARKING

Car and boat parking is available to financial Ordinary/Full Members only.

Cars **must not** use trailer parking areas unless towing a trailer.

Country Members can park vehicles for a maximum of 2 days. If you require parking for more than two days contact the office for weekly rates.

Non-compliance with parking restrictions will result in deactivation of the member's electronic access key.

## **SECURITY GATE**

Security gates will open by taping your membership card on ENTRY & EXIT. Failure to tap the gate card on ENTRY & EXIT will result in the system denying you access. DO NOT tail gate or allow others to tail gate as this will result in the system denying you and them ENTRY or EXIT. You must not tamper with the boom gates in anyway. We have security cameras operating on both gates and we will be issuing written warnings to all those not abiding by the club rules. After a first warning your gate access will be deactivated.

Please note if Club Staff are called after hours to let a member in or out as a result of misconduct by not following the ENTRY & EXIT gate rules, that member will be fined, and the membership will be suspended until the fine is paid in full. If the member offends a second time, the membership will be cancelled.

If you witness tailgating and people opening the gates, please take note of the time and notify admin asap.

### **Clause 12.3) of the Club Constitution.**

The Constitution of the Club requires that a member's guests abide by the same rules as apply to members.

Any member of the public that is not a member or a guest of a member of the club will not be allowed to be served at the bar and would be asked to leave. Application for membership details would

be supplied to any member of the public requiring information about qualifications to become a member under the terms of the club constitution.

The club through its Board of management, will set and maintain dress and behaviour standards. Dress standards will be clearly advertised and displayed in the bar area.

To maintain the standards as required under the terms of constitution the club would maintain a firm stance in identifying and removing unruly behaviour and drunkenness.

The Hampton Harbour Boat & Sailing Club Inc has identified four areas of its patron care:

1. The club facility – we have worked with local, health and licensing authorities to build and maintain the bar and kitchen area to meet the standards while being able to develop core operational functions. The club facilities will be upgraded and changed as members' needs change, but with full knowledge of the various licensing authorities.
2. Drink Driving and our members – stricter policing of road rules has impacted on the businesses of clubs, we will continually look to identify ways so that each member can happily utilise the club facilities without risking their safety and livelihood with excess alcohol consumption. The promotion of food services and responsible drinking initiatives will be highlighted in club services.
3. Local Community – The club must first look after its members and make sure we are providing the services they require. The club is conscious that it is seen as a true community player, we need to be seen by our members as active in the community as a way of them being supportive of our efforts with returned business. The Club will work with other business and its neighbours to ensure a very harmonious relationship.
4. The club provides food and snacks for its members. The club stocks and prominently displays specialised non-alcoholic drinks and soft drinks for sale.

The club maintains an Approved Licensed Manager amongst its ranks and that person is responsible for training all staff members. The club provides all resources to easily allow staff to undertake the necessary training. The responsible server practices as set out by the Director are discussed and interpreted by the Approved Manager with participation of all staff members on a regular basis.
